## **The Western Springs Foundation for Educational Excellence**

Founded in 1992 as a non-profit volunteer organization, the Western Springs Foundation for Educational Excellence (WSFEE) has pledged over \$800,000 in funds for programs that enhance the educational experience of Western Springs District 101 students. Funds are raised through the biannual Dinner Dance and Golf Outings, then given back to the four schools; McClure Junior High, Field Park, Forest Hills and Laidlaw in the form of approved grants which are written and submitted by teachers, administrators and parents. Grants are reviewed and approved twice yearly by the WSFEE Board of Directors. Programs funded support every aspect of education: the arts, science, technology, literacy, social studies and physical education.

The 2009-2010 Board of Directors would like to thank all of the past board members of WSFEE for bringing us this far, as well as all of **you** for helping us help our kids.

Interested in joining the WSFEE Board?  
Please talk to any current Board member!

# Field Park Art Appreciation Projects

Each year Field Park Elementary School hosts an art gallery of its students work. A theme or artist is chosen, all grades create artwork based on that theme. This year, the program chose to have each class create a collaborative project to be auctioned off. This experience has reaped many benefits.

The students learned to work together to make one piece of art. Please view these pieces for auction, with hopes the efforts of children can make a substantial financial impact on a charity.
